

Figma Projects

This file contains my Figma projects and UI/UX design works. It includes web design concepts, landing pages, and interface designs created with a focus on visual style and user experience.

<i>Giftarium</i>	<i>A digital platform concept that simplifies gift selection and occasion planning.</i>	View →
<i>GymBuddy</i>	<i>A fitness application designed to help users plan workouts and track their progress.</i>	View →
<i>Macrame</i>	<i>Landing page design for a macramé project featuring handmade embroidered canvas artworks with smooth animations and interactive elements.</i>	View →
<i>Intro</i>	<i>Intro screen design featuring a flower concept with a soft visual style and elegant composition.</i>	View →
<i>Web app for creating craft patterns.</i>	<i>Web platform design for a macramé project including a landing page, main navigation, authentication screens, and footer layout.</i>	View →
